SUMMARY

I am a full stack developer with 8+ years of experience in website design and development. I specialize in building clean, efficient, and scalable solutions, guided by DRY and KISS principles. With a strong focus on user-friendly interfaces and reliable performance, I consistently deliver high-quality results that exceed expectations.

EXPERIENCE

Freelance, **Full Stack Developer and Software Engineer**

Nov 2019 - Present

- Developed and implemented several responsive websites using best coding practices, improving user experience and functionality.
- Integrated APIs and backend functionality, enhancing website performance and scalability, reducing load times.
- Customized and implemented CMS such as WordPress, integrating e-commerce functionalities and payment gateways.

RexTexh International Limited, **Frontend Developer and Product Design Lead (Contract)**

Jan 2022 - 2023

- Led the design team and spearheaded the front-end development of a job finder app, enhancing user experience and functionality.
- Produced wireframes, prototypes, and mockups for web and mobile applications using Adobe XD, HTML, CSS, and JavaScript, ensuring seamless integration and responsiveness.
- Collaborated with a cross-functional team to create user-centered web and mobile experiences, improving codebase readability and facilitating backend collaboration.

Quest to Reality LTD, **Frontend Web Developer, Product Support and Digital Marketer**

Oct 2017 - Nov 2019

- Contributed to the successful launch of a cloud-based school management software, increasing conversion rates by 11% through effective social media marketing.
- Maintained and developed bug fixes and patch sets for existing web applications, enhancing performance and user experience.
- Collaborated with the development team to design, develop, and launch the company's website, increasing website traffic by 30% through an integrated social media strategy.
- Provided product support by creating support articles, video tutorials, and staff training videos on the school management software.
- Provided consultancy services to clients on the school management software.
